

Keith Abraham, B.Sc (Hons) MCIOB FFB

Managing Director, Cassian Consultancy Services

Background

Keith has had more than twenty years of experience in the construction industry and has excellent presentation and interpersonal skills, he is able to build and work within a team to achieve quality results within a pressurised environment.

Previously working for a multi-national contractor Keith was responsible for programming, planning and design build co-ordination for a wide range of building and civil engineering projects. These projects were generally up to £10 million in value, and were normally dealt with on a negotiated basis.

Keith set up Cassian Consultancy Services in 1999 primarily to provide Project Management Services. The range of services provided however now extends to condition surveys, dilapidations surveys and negotiations for landlords and tenants; and design management, programming, planning and construction advice for developers and contractors.

Education

B.Sc. (Hons) Building; Member of the Chartered Institute of Building, Fellow of the Forum for the Built Environment.
